PATTERSON-KELLEY

P-K SONIC®

Satisfies Domestic Hot Water and Comfort Heat Applications*

**Domestic hot water options only available from 650-1000 MBTUs*

The P-K SONIC® stainless steel condensing boiler surpasses all expectations in efficiency, size and material design. This unique design allows the P-K SONIC® to operate up to certified 97% efficiency with up to 7:1 turndown and ultra-low emissions.

The P-K SONIC® comes standard with the NURO® Touch-Screen Control System, providing the ability to easily control your indoor boiler system anytime, from anywhere. Whether using a desktop or mobile device, NURO® Connect allows for quick easy modification of system parameters for optimal efficiency.

Up to **Certified 97%** efficiency

SMARTER STAINLESS STEEL DESIGN FOR A LONGER LIFE AND GREATER RELIABILITY

INTEGRATES SEAMLESSLY WITH YOUR EXISTING HYDRONIC SYSTEM

PERFECT FOR NEW INSTALLATION AND RETROFIT PROJECTS

60% SMALLER THAN THE LEADING COMPETITION

PATTERSON-KELLEY

P-K SONIC®

Breaking Barriers in Design and Reliability

Big output in a small design

Easily fits through a standard 36-inch doorway and navigates corners and hallways with ease.

Easy maintenance for better performance

Compact design allows easy to access front maintenance door, saving time and money associated with repair and maintenance.

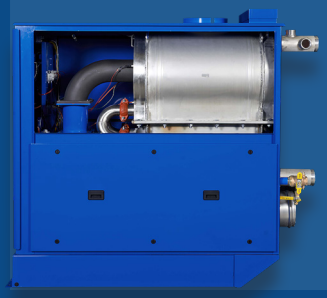
NURO® Touch-Screen Control System

Easy to Use:
Simple touch-screen technology adjusts boiler controls with a swipe of the finger.

Easy to Set-up:
Setup Wizard provides guided setup for virtually all applications.

Easy to Connect:
NURO Connect® gives access to data through mobile or desktop devices.

COMPETITION SIZE



A design that fits

60%

*SMALLER THAN THE LEADING COMPETITION

**Calculation based on competitor boiler size of 40.5"Wx109"Dx80"H*

FEATURES

- Unique stainless alloys resist corrosive condensation
- Compact design fits through a standard 36" doorway
- Full modulation burner with up to 7:1 turndown
- Available with domestic hot water option (650 to 1,000MBTU only)

ADVANTAGES

- NURO® Touch-Screen Control System allows for easy control anytime, anywhere
- Front accessibility reduces repair and maintenance costs
- Low electrical energy consumption increases savings
