

# NURO<sup>®</sup> Conversion Kit

Upgrade your existing P-K boiler with the best in class control system you can access from anywhere, anytime.

The NURO<sup>®</sup> Conversion Kit includes a NURO<sup>®</sup> Control with the appropriate wiring for existing MACH<sup>®</sup> boilers, as well as a new door assembly for mounting the NURO<sup>®</sup>.

With its patented swing technology, the mount makes servicing the boiler a breeze.

The NURO<sup>®</sup> Conversion Kit is applicable to MACH<sup>®</sup> Boiler Models C750 – C4000

### Quick Upgrades:

Upgrade software, capture all settings, and program boilers all from a USB drive.

### Universal:

Integrate with current building management platforms.

### NURO<sup>®</sup> Connect:

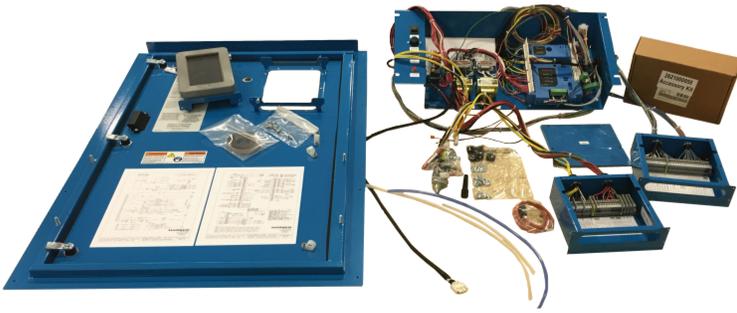

View and manage the boiler room from anywhere in the world with real-time accessibility

- + Unlimited boiler and site connectivity

### Seamless Integration:

Factory support to integrate NURO<sup>®</sup> to existing devices such as chimney exhaust fans, combustion air fans or louvers, isolation valves, circulators, etc.

# NURO<sup>®</sup> Conversion Kit

## ABOUT THE NURO<sup>®</sup> CONVERSION KIT

The first boiler control system that never goes out of date, and is certainly not out of touch. Boiler control points are easily set with the swipe of a finger, guaranteeing safe, efficient, and reliable boiler performance that can be controlled from anywhere, anytime using NURO<sup>®</sup> Connect.

The easy to use step-by-step Setup Wizard provides the ability to select from a variety of preconfigured settings or customize to your needs for optimal system efficiency.

Designed with efficiency in mind, the NURO<sup>®</sup> monitors and modulates the combustion and ignition of the boiler to maintain the desired outlet temperature, allowing you to minimize the efficiency gap between the boiler and the system. Should a boiler issue arise, system diagnostics pinpoints and troubleshoots boiler errors and produces solutions and common repair suggestions.

## REASONS TO UPGRADE

- ✓ Setup Wizard provides guided setup for virtually all applications
- ✓ “Black Box” error trending providing performance data 10 minutes before and after error
- ✓ Upgradable software through USB
- ✓ Import and export parameters allow for copying complex parameters to other boilers and restoring settings
- ✓ Virtual technician with help buttons on all parameters
- ✓ NURO<sup>®</sup> Connect remote monitoring through desktop, Android and iOS devices
  - + Notifications & service reminders
  - + Real-time data with history download
  - + Service version for trained technicians

## SPECIFICATIONS

- ✓ 7” Color Touch Screen
- ✓ 2x USB Ports:  
Charging and Mouse Capable
- ✓ 1x Ethernet Port
- ✓ 1x BMS Modbus RTU Port
- ✓ 1x Cascade Port

**A Patterson-Kelley certified technician should perform the conversion. Detailed instructions are available to ensure easy conversion.**
