

Dielectric Transition Fittings

SERIES 647

Victaulic Style 647 IPS to CTS dielectric transition fittings are typically used to join carbon steel or stainless steel pipe to copper tubing with one fitting. The fittings provide a set distance between the metals being joined while maintaining a minimal electric potential between the fitting and surrounding piping.

Available in sizes from ½ – 4"/12 – 100 mm. The Style 647 is available in a thread x thread (TT), groove x thread (GT), and groove x groove (GG) design.

MATERIAL SPECIFICATIONS

The Style 647 dielectric transition fittings are a copper silicon casting conforming to UNS C87850 and are UL classified in accordance with ANSI/NSF-61 and NSF 372 for ambient +86°F/+30°C and hot +180°F/+82°C potable water service.
