

FLOAT AND THERMOSTATIC STEAM TRAPS – CFTH Series

APPLICATIONS

Series CFTH float & thermostatic steam traps provide immediate and continuous discharge of large amounts of condensate, air and non-condensable gases. These traps meet large capacity drainage needs required on such services as:

- Absorption Systems
- Air Handling Coils
- Heat Exchangers
- Dryers
- Evaporators
- Hot Water Generators
- Rendering Machines
- Steam Process Equipment

FEATURES

- All stainless steel internals – for long service life
- High capacity condensate removal
- Thermostatic air vent for removing large volumes of air
- Adjusts to pressure and load variations instantaneously
- In-line replaceable thermostatic capsule and seat
- Optional liquid level glass assembly for model CFTH-175
